What is the Aurora Programme?

“Developing future leaders for higher education.

Aurora is our women-only leadership development programme. It is a unique partnership initiative bringing together leadership experts and higher education institutions to take positive action to address the under-representation of women in leadership positions in the sector.

Over the past four years 3477 women from over 139 institutions across the UK and Ireland have participated. We seek to further support women and their institutions to enable leadership potential, and further embed strong networks across the sector to share best practice, insights and experiences.”

Who is Aurora for?

Aurora is for women up to and including senior lecturer level or the professional services equivalent working in a university, college or related organisation who would like to develop and explore issues relating to leadership roles and responsibilities.

Participants should have the endorsement of their institution (either their Aurora Champion or line manager) and be committed to developing and enhancing their career.
What does it involve?

Participants will be asked to:

- attend each of the four development days, and the action learning set day organised by participants in their assigned groups;
- undertake self-directed learning throughout the programme, aligned with developing interests and where time allows;
- commit to working with a mentor;
- be prepared to participate in a longitudinal study to measure the work experiences of women in higher education, and the impact of Aurora over time.
